

SERVICE OVERVIEW

# INTERNET PROTECTION

Our Internet Protection service provides control over and visibility to all user Internet activity, including remote, traveling and virtual workers and devices.

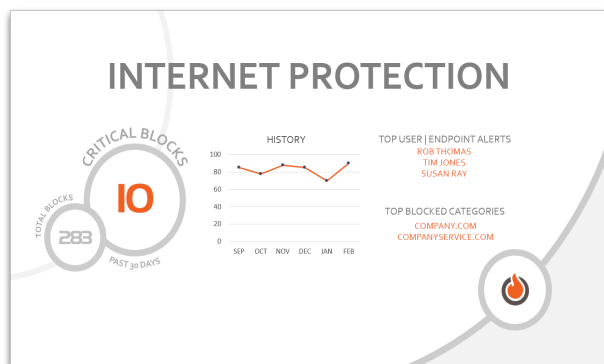

Granular control over website content and security helps ensure that remote workers are protected no matter where they are. Whether in-office or WFH, Internet Protection helps you improve security and reduce risk.

## BENEFITS

- o Reduced Risk from Internet-based Threats
- o Improved Security for Remote and Virtual Workers
- o Improved Control Over User Browsing and Internet Activity
- o Improved Regulatory Compliance

## FEATURES

- o Granular control over authorized website content to reduce distractions and risks.
- o Continuous monitoring and blocking of suspicious or compromised websites to reduce risks of ransomware and other threats.
- o Agent-based architecture that ensures workers are protected wherever they work – remotely, traveling or in unknown locations.
- o Automatic 8x5 triage, analysis, and escalation of alerts to minimize disruption and losses from cybercrime.

# AFFORDABLE, OUTSOURCED **CYBERSECURITY** SERVICES FOR SMALL BUSINESSES

## REGULATORY COMPLIANCE

Compliance expertise across industries, including Manufacturing, Healthcare, Finance, Auto, and more.

## INTRUSION & THREAT DETECTION

24x7 automated detection of threats, intrusions, and other malicious activity.

## AWARENESS TRAINING

Continuous and automated employee training, education, and newsletters.

## VULNERABILITY MANAGEMENT
